

# A/V Instructions: A119

## Item Storage

The room has a gray box with a DVD player, remote and short HDMI cable.

## Power

Aim the TV remote at the infrared receiver (hanging below the main TV) and press the Power On button to turn on both televisions. Do not use remote to adjust any inputs or settings. Just use it to turn screens on/off and adjust volume

## Screens

The room has two identical TVs fed by a single HDMI input on the wall plate below the white board. Use the TV remote, aimed at the infrared receiver, to power the screens on all at once. Do not adjust anything else (aspect ratio, input) on the TVs.

## Connecting Devices

Use the long HDMI cable, wired up to the small podium, to connect your device to the wall plate below the TVs.

## DVD Player

The room is equipped with a DVD player. Use the included short HDMI cable to plug it into the wall plate below the TVs. Use the DVD remote to turn it on and operate the device.

## Volume and Sound

Volume is controlled by the TV remote.

## Checklist for Turning Off and Shutting Down

Remove DVD from player (if used).

Disconnect device(s) and put cables back.

Turn off screens.

Put DVD player, remote, and short HDMI back in gray box. Put TV remote back in holder.
